

## Farmers' Cooperative Head Issues Statement On NRA Price Fixing

President of Accord Cooperative Says NRA Is Trying To Force Organization To Raise Prices Despite Reasonable Profit.

### THE LETTERS

Copies of Letters Received From Varied and Numerous Code Enforcing Authorities Submitted.

THE ACCORD FARMERS' CO-OPERATIVE, INC.

Accord, N. Y., August 1, 1934.

To the Editor of The Freeman:

I am President of The Accord Farmers' Cooperative, Inc., a farmers' organization which came into being under government authority to give farmers some of the commodities they have to buy as cheaply as possible. One of the lesser commodities we deal in for our approximately five hundred patrons is cement. We buy this for 34 1/2 cents per bag and have been selling it for 70 cents, which we consider a fair profit.

We have never signed any code.

So that our patrons and others can understand the workings of the NRA and how it is attempting to force us to increase the price of cement from 70 to 80 cents per bag to our patrons, I am enclosing herewith copies of letters we have received from varied and numerous code enforcing authorities.

These letters speak for themselves.

Yours very truly,

MILLARD DAVIS.

Dear Mr. Nelson:

I was very much surprised to learn today that you are still selling cement at 70 cents per bag. Apparently you did not believe me when I told you what the set-up was and if you persist along this line the only thing we can do is to put you on the carpet.

These are plain words, but it is the law, and we are not going to let one small dealer disrupt the whole organization.

Yours very truly,

### William Soberscheck Ended His Life by Drowning in Creek

Tied Rope to Large Stone and Then Tied Rope Under His Arms and After Binding His Feet Together Jumped Into Rondout Creek on Friday Afternoon—Body Found Saturday Afternoon.

William Soberscheck, 65, of Connelly, committed suicide Friday afternoon by drowning, but his body was not found until Saturday afternoon. Friday noon he had eaten dinner with his sister, Mrs. Leocadia Bechtold at Connelly and then left the house and gone to the Rondout creek where he kept his fishing boat. Obtaining a large stone and some rope he had fastened one end of the rope to the stone and fastening the rope under his arms had tied the other end to the crane on the boat, and after tying his feet together with rope had dropped from the boat into the waters of the creek.

Richard Banks had noticed the fishing boat moored alongside a barge at the Hiltzbrant yard where it had remained all afternoon Friday and Saturday afternoon he and Joseph Dulin walked down to the boat and saw the rope tied to the hoisting crane, which is used to haul the fishing nets out of the water.

Looking over the side of the boat they saw the body in the water. Using the crane the two men hoisted the body to the surface. Coroner W. Norman Conner was notified and accompanied by Arthur Keator, A. Van Ness and D. M. Meller of his office. Deputy Sheriff Clayton Vredenburg of the sheriff's office and Officer Ernest Boss of the local police force, the party went to Connelly and made an investigation.

Following the investigation Coroner Conner gave his verdict "suicide by drowning," and removed the body to his funeral home on Fair street where funeral services were held at 10 o'clock this morning with interment in the Port Ewen Cemetery.

Soberscheck is survived by two brothers, George Scheck of Connelly and Conrad Soberscheck of Teaneck, N. J., and his sister, Mrs. Leocadia Bechtold of Connelly, also several nieces and nephews.

LABOR ENTHUSIASTIC OVER HOME MODERNIZATION PLAN

Atlantic City, N. J., Aug. 13 (AP)—Expressing labor's enthusiastic support of the home modernization campaign, William Green, president of the American Federation of Labor, estimated today it would benefit 2,000,000 persons in many industries.

Green said the program would probably give employment to 1,000,000 building trades workers.

The increased demand for materials, he said, should stimulate affiliated trades and indirectly benefit 1,000,000 more.

He reiterated that labor would oppose any move to lower wages because of the building program, but said that the wage question was "a local matter to be worked out in each community."

"The American Federation of Labor has endorsed and approved the plan," Green said, "and is calling upon the building trades in every city, town and village to organize to further it."

Niagara Falls, N. Y., Aug. 13 (AP)—With a tremendous roar, a great slice of the Horseshoe Falls collapsed into the Niagara gorge at 8:20 a. m. (EDT) today. The collapse, which threw a huge column of water into the air, was witnessed by a number of Niagara state reservation patrolmen and workmen.

The piece of the lip of the falls which collapsed left a large gouge in the contour of the crest. The piece broke off between the middle of the falls and the Canadian mainland shore.

The collapse is the second large one to have occurred at Niagara in recent years. On January 17, 1931, a piece 150 feet deep and 300 feet wide fell from the face of the American Falls, bringing down an estimated 80,000 tons of rock.

Horatio Collins, assistant chief of police at the Niagara reservation, estimated the slice of rock was 200 yards wide and 50 feet or more deep. He is believed to be the only person who witnessed the actual slide, although others at the reservation heard the rumble.

Rumble Like Thunder Collins was standing at Terrapin Point near the edge of the Horseshoe Falls. He said he heard a rumble like thunder, but did not see the first rock give way.

"I saw the second slide soon after," Collins continued. "The brink appeared to crumble halfway between Terrapin Point and the vortex of the falls, about a quarter of the distance across the falls from the American shore."

"The huge piece of rock fell into the gorge and sounded like thunder or an earthquake. Water from the bottom of the falls flew so high from the impact that it exceeded the height of the falls. It must have risen at least 750 feet."

The falls was 160 feet high at the point of the slide.

"The water above the falls became muddy," Collins said, "and continued to remain so for quite some time, looking black and dark as it passed over the brink of the falls."

"The changed contour of the falls was easily visible to me after the slide, but I doubt if it would be to anyone who has made only infrequent visits here."

When the first rockslide happened in 1931, it appeared as if a big chunk in the shape of a "Y" had been carried away.

INDIAN RUNNERS BRING INVITE TO CHIEF BLUE EAGLE

Buffalo, Aug. 13 (AP)—Twelve Indians running an invitation to President Roosevelt to attend the Four Nations celebration at old Fort Niagara, September 3-6, were well on their way into New York state's southern tier today, passing through Painted Post at 5:30 a. m. (EST).

The Indians began their trek yesterday morning, passing through this city about two hours later. They expect to average about seven miles an hour on the run, reaching Washington some time Wednesday.

Bird-Lying-Down, 26, began the courier run, carrying three kernels of corn in a wampum pouch the first hour. The corn is the Indian symbol of an invitation. Bird-Lying-Down will make the final sprint through Washington, handing the corn to President Roosevelt.

The Indians are running in one-hour relays, 11 resting in an accompanying bus while the twelfth plods along the highway.

The route through New York led to Wayland Painted Post, and Lindley before entering Pennsylvania.

Treasury Receipts

Washington, Aug. 13 (AP)—The position of the treasury August 10 was: Receipts, \$10,682,345.62; expenditures, \$24,395,649.19; balance, \$2,338,541,102.41; customs receipts for the month, \$7,927,321.16. Receipts for the fiscal year (since July 1) \$350,393,499.65; expenditures, \$558,771,724.97 (including \$221,485,272.44 of emergency expenditures); excess of expenditures, \$208,478,225.31; gold assets, \$7,973,747,271.15.

Earthquake Recorded.

Washington, August 13 (AP)—An earthquake of moderate intensity was recorded on the seismograph at Georgetown University last night. Beginning at 7:05:25 p. m. eastern standard time, the disturbance reached a maximum at 7:06 p. m. and ended at 7:20 p. m. The distance from Washington was 9,999 miles, with direction uncertain.

## Relief Officials Expect Two Billion Financing To Spend Huge Amount Looms in September and In Fight Against Drouth The Bonds Are Dropping

President Confers With Relief Heads as Indications are Noted For More Than \$525,000,000 To Fight Drouth.

### CROP CONTROL

Sweeping Changes are Expected to Take Place in AAA's Control of Crops.

Washington, Aug. 13 (AP)—President Roosevelt summoned relief officials to the White House today, and there are indications that the government will spend more than the expected \$525,000,000 in the fight against drouth.

A bigger war chest to allow suffering in the calamity zones already has been suggested by relief workers, who told Mr. Roosevelt the \$525,000,000 set aside would not suffice.

The President, just back from a trip through ruined and baking farm-lands, is seeking means of providing whatever additional money is necessary.

Aubrey Williams, acting federal relief administrator, headed the officials called to the White House today.

To a degree, unequalled since World War days, the government will keep an eye on food supplies during the fall and winter. Realizing that with crop estimates down to the lowest level in 30 years higher prices to the consumer are inevitable, officials promise to do everything possible to stanch profiteering.

Sweeping changes in the AAA's crop control also are planned. The farm administration for instance, is likely to aim at the same wheat acreage as during the years 1927-32, tossing out of the window any plan to cut it 15 per cent.

Loosening up on iron control of cotton, the farm administration is likely to permit the planting of 32,000,000 to 35,000,000 acres, as contrasted with 25,000,000 this year.

Mother Nature, ironically, seems to have paved the way for probable success of a sort at the world wheat conference opening in London tomorrow.

CAN THROW NO LIGHT ON DEATH OF HUSBAND

Portland, Me., Aug. 13 (AP)—Mrs. Edward T. Kennedy, whose husband was found shot to death in Poughkeepsie, N. Y., last night, grew hysterical at the news today but could throw no light on the slaying.

She said Kennedy had been engaged in selling beer for the Seitz Brewery Company at Easton, Pa., and that she saw him last week in Philadelphia.

Kennedy was due to appear next month in the federal court here to answer a charge of transporting liquor into Maine last May, and had been released in \$750 bail.

Mrs. Kennedy said her husband had not been here since last spring, at which time she and her two children, Edward, 17, and Jerry, 13, came to live with relatives.

Edward, who recently suffered injuries while swimming and now is in a hospital, Mrs. Kennedy said she had repeatedly written her husband for money but had received no answer.

A native of Monroton, N. E. Kennedy achieved local fame as a hockey player, she said. They lived here for eight years after their marriage and about 10 years ago moved to Philadelphia where Kennedy obtained a job as manager of the Burlington apartments.

## Don Gonzalo, Young Prince of Spain, Dead

### Twenty Mile Limit For Big Omnibuses

Family Malady of Memphobia or Skin-Bleeding Caused By Auto Accident, Fatal to Fourth Son of Alfonso.

Klagenfurt, Austria, Aug. 13 (AP)—Don Gonzalo, 15-year-old prince of Spain and fourth son of Alfonso, former king of Spain, died today of the family malady of hemophilia or skin-bleeding, caused by an automobile accident.

Death came at Poetschach-Woerther See, the villa of exile for the royal family.

The prince, whose full name was Gonzalo Manuel Maria Bernardo Naxos Alfonso Mauricio, was injured late last night in an automobile accident while returning to the villa from Klagenfurt with his sister, the Infanta Beatriz.

A physician said the injuries suffered by the prince would not have caused death to an ordinary person, but in his case, the doctors were unable to stay the flow of blood.

The Infanta, who is 25, was driving the car at the time of the accident. She swerved it into a wall to avoid running down a German bicyclist, Baron Richard Von Nelsmann. The prince was hurt in the resulting crash.

The Baron was arrested. Princess Beatriz was prostrated by grief today.

Don Gonzalo was taken to the villa at once but he died soon after his arrival. He died while his father held his hand and his sisters and brothers knelt in prayer.

The youth's body will be held 26 hours pending the return from Davos, Switzerland, of the former Queen Victoria who is to decide whether her son shall be buried in Austria or elsewhere.

Hundreds of telegrams of sympathy already have poured in on the royal family from all parts of the world.

Alfonso himself was involved in an automobile accident in Vienna a month ago and the following day his chauffeur ran down and killed a pedestrian.

## Byrd Is Rescued, Weak and Emaciated

Weariness Party succeeds in reaching his solitary weather observation post, After Three-Day Battle Against Elements of the Antarctic.

Little America, Antarctica, Aug. 13 (AP)—Delayed.—Rear Admiral Richard E. Byrd today gave the world the first news of the rescue of his party.

A weariness party of three succeeded in reaching the solitary weather observation post, 125 miles to the south, yesterday after a three-day battle against elements of the Antarctic.

They found Byrd, commander of the second Antarctic expedition, worn and weak, but cheerful. The news that the little band of three, barked twice before, had pushed through, was an immense relief to headquarters here. Deep congratulations had been sent Byrd's situation.

"Admiral Byrd is quite weak, but he will be all right in a moment," reported Dr. Thomas C. Poulter, leader of the tractor party, by radio. "Admiral Byrd was even calmer than we were when we met in this place."

A few minutes later Byrd took the key himself. "Tell my friends not to worry," was the message he slowly tapped out. "I'm all right. I've already come up a great ways. You fellows have done a splendid job and I want to thank you."

Byrd had not seen a human face since March 28. His hair was long and shaggy, Dr. Poulter reported, he had a several-days' growth of beard, and showed signs of weariness and physical depletion.

## Henrotte Sponsors Benedictine Concert

The true artist, whether musician, painter or writer, shows his greatest in his wish to share the beauty of his art with others as well as in the actual exercise of his art. It is this that makes him a true artist. In the world of art, there are no more generous people than the world's true artists. All of which is by way of introducing or re-introducing Pierre Henrotte, famous Belgian violinist and sponsor of the Benedictine concert to be given on the evening of Wednesday, September 7, at the Kingston High School auditorium for the financial aid of the Benedictine Hospital.

Mr. Henrotte has come to make his home in Ulster county, at Woodstock, and shows his Americanism for he is now a citizen of this, his adopted country—by doing many things for the good of the best in music and for the community at large in which he lives.

Not only is he giving his services as an artist but he is helping in many other ways to make even more successful than the concert he sponsored two years ago, the one on the evening of September seventh. Chief among these other ways, is the bringing to the music lovers of Kingston and vicinity other artists of world renown—his friends and co-workers.

Born in Liege, Belgium, Mr. Henrotte began his musical career early in life. At the age of sixteen, he was concert master of the Symphony Orchestra at Nice and Aix les Bains. In 1904 he came to this country where he was given an ovation at his debut as soloist for the Rubenstein Club in New York city. A great orchestra is a magnet that draws Pierre Henrotte irresistibly and he became concert master of the Metropolitan Opera House soon after his arrival. In 1909 he left New York to accept a similar position with the Boston Opera Company and later he was concert master of the Chicago Opera Company. But he could not remain away from New York indefinitely and he finally returned to the Metropolitan Opera orchestra where he has been concert master ever since. Once every year he conducts the Metropolitan Opera orchestra.

This shows the background of the soloist of whom the critic at a performance of the violin and piano sonata in G minor by Guillaume Leken, the famous Belgian composer, given at a meeting of the Symphony Club at Minneapolis wrote: "Mr. Henrotte revealed himself as a violinist of true merit and great experience. His tone was rich and fluid and always true to pitch. He interpreted the work with loving authority."

Those who heard Mr. Henrotte with Inez Carroll at the piano, play the Cesar Franck Sonata at The Maverick Sunday concert on August 5, will especially appreciate the truth of the above criticism of Mr. Henrotte's playing of that work as well.

## Iowa Corn Used In Hard-Hit South

By PORTER M. HEDGE.

Des Moines, August 13 (AP).—Widespread drought over the mid-west has started the movement of thousands of bushels of Iowa's golden corn into the hard-hit south and southwest drought areas to provide subsistence for starving livestock.

Hundreds of trucks, their sideboards bulging with corn, ply main highways south through Iowa daily and into the drought-stricken states adjoining.

Elevators report large shipments of corn by freight into Missouri, Kansas, Nebraska, Arkansas, Oklahoma and as far south as Texas. Trucksters move out of the burned areas, particularly from northern Missouri, into Iowa where thousands of bushels of corn still are stored under government seal. They buy both from elevators and direct from farmers.

They are paying market price and better for the corn, state officials say. In some sections they are paying as high as 75 to 80 cents a bushel. The corn was sealed by the government at loans of 45 cents a bushel but now is being released. Assistant Agriculture Secretary H. C. Aasberg estimates that the corn is being released in Iowa at the rate of a million bushels a day, but he said there still is about two-thirds of the corn under seal.

It's probably plain dumbness that we haven't learned yet to bottle up the summer heat for winter and the winter cold for summer.

## Smart Early Fall!

Edited by  
LAURA I. BALDT, A.M.  
For many years Assistant Professor of Household Arts,  
Teachers College, Columbia University, New York

3168

A charming dress for early fall and suitable for many figures. It is modish and chic for the normally built woman, and will also have a slenderizing effect for the fuller type. For the short girl, it is lovely too, as its long bodice cut, hip seaming and center-front and back panel effect all have length-giving qualities.

Black satin, novelty rayon crepe in dark evergreen coloring, reddish brown heavy sheer crepe and black crepe marocain are smart fabrics for early fall.

Style No. 3168 is designed for sizes 16, 18 years, 36, 38, 40 and 42 inches bust. Size 36 requires 4 yards of 39-inch material with 1/4 yard of 39-inch contrasting.

Send TEN CENTS (10¢) in stamps or coin (coin is preferred). Write plainly NAME, ADDRESS and STYLE number. BE SURE TO STATE SIZE YOU WISH.

THE NEW SUMMER EDITION of our PATTERN BOOK features FASHION, BEAUTY and HEALTH.

PRICE OF BOOK TEN CENTS.

## Fashions by Barbara Bell

A Smart Dress to Start  
the Fall Season With

By their necklines will you know the first dresses of fall. Two distinct types stand side by side in the new autumn collections and both are interesting. The one that we will discuss first is the plain boat-shaped line that eliminates the collar entirely and follows a stretched-cowl method of procedure in front and is perfectly straight in the back. These are seen in tunic frocks of fine lame, where dolman sleeves give a graceful treatment to the bodice; the other type is the one in which a mysterious witchery of line is arrived at through manipulation of the material.

One of the favorite collars of the season is the one seen on the all-day type of dress shown in the sketch. Its straight lines reflect the treatment that has made Patou's street frocks so popular this season. It is less bulky at the throat than many frocks in the new collection. This point gives its owner the advantage of wearing endless numbers of well-styled scarves, jabots and bouffant bows, for this is to be a year of removable and adjustable neck trimming. By owning several smart changes most of us will make one dress do the work of three. Normally, reigns in the waistline, sleeves and skirt length, the new measurement from the floor being ten inches for daytime dresses of this type.

An encouraging appearance of satin-back crepe is proving the all-year around charm of this fabric. The satin side is chiefly used for trimming purposes, as in this yoke and revers, and the dull side for the dress. Crepe weaves give a herringbone surface to some of the newest silks, and satins are crinkled after the fashion of Schiaparelli's tree bark fabrics of last season. Green is the leading color for fall and under its head come the artichoke and chow-chow shades along with the more vital tones of the parakeet and the Killarney colorings.

## Practical and Smart

No single item in the young lady's summer wardrobe is more practical, comfortable and smart than a brief crocheted sweater, like the one here shown. If it is of mercerized crocheted cotton in an openwork stitch it will be light and airy enough for the hottest day. This little blouse has a high square neck with four round brown buttons, very short sleeves, and fits tightly about the girl's waist.

## Sapsucker Woodpecker

### Stores Supplies in Tree

There are certain woodpeckers who keep whole pantries full of sap supplies on hand, says the Washington Star. The sapsuckers are the thrifty creatures who put up stores of delicacies, only to be obliged to defend them from the raids of less industrious but hungrier birds.

In any juicy maple or sweet birch, the sapsucker arranges his ladder. Very carefully and very efficiently he bores through the tough bark of the tree to the living streams of sap inside. Then in neat rows arranged for convenience, encircling the tree, he scoops out his cups—dozens of them. A single sapsucker is not content until he has a whole cluster of trees tunneled and scooped and sticky as soda fountains.

But it is not only the initial work of building and arranging his pantry that bothers the sapsucker. It must be kept in order. The cups must be cleaned and made bigger. The tunnels must be kept clear for the sap. And even that is not all. For the birdfellow of the sapsucker have no scruples about raiding these well-stocked fountains, and the sapsucker must be vigilant not to be wholly robbed by warblers and kinglets and woodpeckers and orioles—and worst of all—by the hummingbirds who can dart at the cupboard and rob it before the sapsucker has spread his wings in pursuit.

For variety in his menu, the sapsucker eats the insects which come by the hundreds, attracted by the sweet odors of his kitchen.

## GOSSIP AT A SUMMER HOTEL

MY DEAR, HAVE YOU WATCHED THAT ENGAGED COUPLE? POSITIVELY SCANDALOUS THE WAY SHE TREATS HIM—SO COLD, INDIFFERENT

HOW INDIFFERENT—AM I? IF THOSE TWO BUSY-BODIES GOT OUT OF THEIR ROCKING CHAIRS ONCE IN A WHILE, THEY'D DISCOVER THE REASON

BUT PERHAPS IT ISN'T FAIR TO BLAME HIM FOR A FAULT HE DOESN'T EVEN KNOW HE HAS? HOW CAN I WARN HIM ABOUT "B.O."?

LATER... a gentle hint  
SURE I'LL RUN YOU OVER TO THE VILLAGE, SWEETHEART. WHAT DO YOU WANT TO GET?

SOME LIFEBOUY. I'VE USED UP MY LAST CAKE AND I DON'T DARE RISK "B.O." ESPECIALLY THESE HOT PERSPIRY DAYS

QUEER LOOK SHE GAVE ME WHEN SHE MENTIONED "B.O." HAVE I BEEN CARELESS? IS THAT THE REASON WE DON'T GET ALONG?

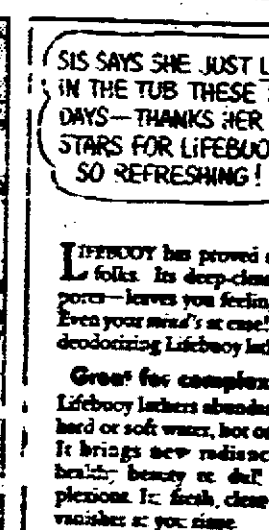

GLAD I DECIDED TO TRY LIFEBOUY. SO REFRESHING—SO EXTRA CLEANSING! I'LL NEVER TAKE CHANCES WITH "B.O." AGAIN

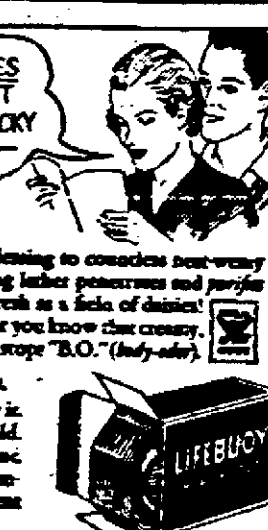

"B.O." GONE... a real romance now!  
WHY THEY'RE LIKE TWO LOVERBIRDS NOW AND JUST SEE HOW MUCH FRESHER, SPRUCER HE LOOKS! MUST BE LOVE AND LIFEBOUY

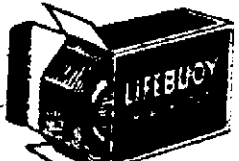

SIS SAYS SHE JUST LIVES IN THE TUB THESE HOT DAYS—THANKS HER LUCKY STARS FOR LIFEBOUY—SO REFRESHING!

LIFEBOUY has proved a blessing to countless dew-drenched folks. Its deep-cleansing lather penetrates and purifies pores—leaves you feeling fresh as a field of daisies! Even your mind's at ease! For you know that creamy, deodorizing Lifebouy lather keeps "B.O." (body odor) far away.

Great for complexion. Lifebouy lathers abundantly in hard or soft water, hot or cold. It brings new radiance and beauty to your complexion. It's fresh, clean, scents vanishes at you smile.

## Auto Crashes Into House And Turns Over

One of Mrs. Conrad Lasher, near Woodstock, was injured when a car crashed into her house and turned over. The car was a 1932 Buick sedan, owned by Royce touring car, and was driven by Donald C. Fuller of Summit, N. J. The car crashed into the front of the house, breaking a window and otherwise damaging the house. Following which it turned over, landing on its top, badly damaged.

## Rain And Welcome Chill In The East

New York, Aug. 13 (AP)—An old fashioned nor'easter blowing gustily down the Atlantic coast as far south as Virginia, brought rain and welcome chill to the east today.

Winds from the low barometric areas of southern New England carried rain squalls along the coast into eastern Pennsylvania and New York, Maryland and Northern Virginia.

They brought relief to millions who had suffered under the high humidity and temperatures of the past week, and the heavy downpours, and forecasts of more rain to come, were received gratefully in arid agricultural sections.

The thermometer reached a low of 55 in New York city at 5:30 a. m. today, and had climbed but five degrees to 63 at 10 o'clock. Weather forecasters said the afternoon would witness the beginning of a gradual return to August temperatures, however.

## Auto Accidents Claim Lives of Four Persons

Albany, N. Y., Aug. 13 (AP)—Automobile accidents claimed the lives of four persons and injured scores of others in New York state at the week-end.

Miss Bertha Miercwa, 23, of Utica, was killed instantly, her throat cut by broken glass, when the automobile in which she was riding collided with another car on the Castleton Road, near Albany, and rolled down an embankment. Three others were hurt.

E. H. Lloyd, 60, of Mount Vernon, was killed and Henry Burch, Millerton, injured when their automobile struck one driven by B. P. Vaughn, negro, of Poughkeepsie, while they were driving into a baseball park. Vaughn and three other negroes were slightly hurt.

Ernest Brendle, New Rochelle, was fatally injured when his car left the road and struck a tree at Briar Hill, west of Ogdensburg.

An automobile collision at a busy Buffalo intersection claimed the life of Police Lieutenant John E. Bowles, that city, and injured five other persons, one seriously.

## Plan Band Concert Wednesday Night

The municipal band concert Wednesday, August 15, will be played at Hasbrouck Park, downtown, from 8 until 10 p. m. by the Citizen's Band under the direction of Harry Malsenholder. The program, which will be announced in The Freeman Tuesday, features selections by well known composers of old favorites and modern music.

Among the numbers featuring members of the band are "The Whistler and His Dog," composed by Arthur Pryor, one of America's most celebrated band masters and trombonists and "Trombonium." The part in the first composition calling for a piccolo solo will be played by Director Malsenholder himself. Trombone parts will bring out the Messrs. Sittler, Hill and Ionna. Mr. Ionna is a member of the Ernest Williams Band of New York city.

It is the plan of Mr. Malsenholder to arrange for a series of band concerts in the Municipal Auditorium during the winter, featuring a prominent soloist on each program.

## HOSPITAL FOR QUINTUPLETS NAMED FOR THEIR DOCTOR

Callander, Ont., Aug. 13 (AP)—An unobtrusive sign with simple lettering today announced the creation of "The Dafeo Hospital", named in honor of Dr. A. R. Dafeo, the northern physician, who has kept alive the famous Dionne quintuplets for 77 days, an accomplishment never before recorded.

The sign hung half-hidden along the narrow winding bush road that leads from Callander to Corbell and near the home where Mrs. Olivia Dionne gave birth to the five girls just 11 weeks ago today.

The hospital being constructed through contributions from persons and business firms throughout the province, will house the five famous sisters, whose combined weight totals only 24 pounds 8 1/2 ounces.

Construction is under way, and Hon. David Cross, Ontario minister of public welfare, will be invited to the official opening September 1.

Around the new home will be a six-foot fence "with a barbed wire top" to afford complete privacy to the infants and their two red-cross nurses who have worked with Dr. Dafeo since the birth of the children. This fence, according to W. H. Alderson, Red Cross executive and one of the legal guardians of the famous sisters, is intended to prevent prowlers gaining admission to the grounds. Two special constables will be on 24-hour duty.

Even the parents will not be permitted to live with the children but will be allowed to see the babies at times arranged by officials in charge. It is planned to keep the children in the hospital until they no longer require constant care from physician and nurses, said Alderson. Various manufacturing and construction companies have provided practically all necessary building and other equipment for the new home.

## Negro Hair Cuts Itself

How often it happens that in searching for one thing another thing is found. The Wool Industries Research Association set itself to solve the problem of the too easy breaking of the way wool of the merino sheep, and in the process discovered why the negro has close frizzy hair. It seems that frizzy hair and way wool have a circular way of growth before they appear above the skin level, and this continues during external growth. Both hair and wool are found to be thinner at the bends than in the rest of the curls, and at these thin places both break easily. Thus, when a negro in civilization brushes his hair, or in the jungles of Africa rubs it with his hands, it breaks off, and saves him the trouble of having it cut. As far as merino wool is concerned a corrective is in sight, and perhaps the negro will use the same device for taking the kink out of his wool!—Tit-Bits Magazine.

## Engraving

Engraving, or intaglio, or recess printing, as it is variously termed, ranks above all other processes when the difficulty of counterfeiting is considered. This rather than appearance, says the Chicago Tribune, is the prime factor in the eyes of the postage stamp issuing authorities, but when well executed, engraving produces the most beautiful stamps. From a collector's standpoint engraved stamps have the advantage of a permanence of color and a durability of paper which is not usually found in stamps made by cheaper processes. The simplest intaglio process used in stamp manufacture is copper plate printing in which the one or more stamp designs on the plate are wholly engraved by hand.

## Man's Second Sight

I have always thought that man has two gifts of sight if he will try to use them. The first and commoner, of course, is the sight for things visible. writes Edgar A. Guest, in the Rotarian Magazine. He sees with his eyes objects and things and acts. The other gift of sight is deeper and more spiritual. It is the sense of vision or perception which permits him to discover in a trivial thing the glory of its creation. He discovers in the line of weary workmen, homeward bound, the dreams and aims and promptings of each toiler.

## Use Little Current

The quantity of current consumed by the average electric clock is so small that it does not register on the meter when all other electrical devices and lights are turned off, writes J. K. Thomas, Ithaca, New York, in Miller's Weekly. Thus about 10,000 of these clocks—in homes, stores and offices—operate during part of the night at the expense of the central electric stations.

## Both Parties Condemned

The Ohio state Democratic convention, held in Allen county, June 16, 1934, passed a resolution declaring that "both political parties have demonstrated that they are powerless to check or control the existing tendency toward the utter demoralization of the politics of the country."

**Kingston:** "The Man With Two Faces." Adapted from the stage play, "The Dark Tower," this peculiar story is marked by hypnosis, dual personality, revenge and murder. A husband succeeds in putting his wife under a hypnotic spell, making it impossible for her to become the great actress she might be. The brother, played by Edward Robinson, manages to get this evil influence out of her life through extreme and dramatic means. Mr. Robinson, the star of the production, is cast in a difficult role, but he comes through with another noteworthy performance. Others in the cast include Mary Astor, Ricardo Cortez, Louis Calhern, Mae Clarke and David Landau.

**Orpheum:** "Baby, Take A Bow." Little Shirley Temple, the child wonder who steals pictures away from the stars, is featured in a story built up expressly for her. As can be imagined, she is the whole works as she wins her way into the heart of the audience with her charm, beauty and naturalness. Her father is a jailbird, accused of theft, and the show tells how little Miss Temple saves the day by proving her father honest and making everybody happy generally. James Dunn, Claire Trevor and Alan Dinehart are all in the cast, but they don't count very much with Shirley Temple at the helm.

**Broadway:** "Where Sinners Meet" and "The Morning After."

**Kingston:** Same.  
**Orpheum:** Same.  
**Broadway:** "Forgotten Men." This film is sponsored by the American Legion Post number 170 for the cause of war veterans, the forgotten men of today. The pictures are authentic and interesting.

## Badly Hurt When Car Crashed Fence

Paul Bettelheim, of 11 Maple Street, New Rochelle, who is engaged with the Guarantee Trust Company, was injured when his car crashed into a fence at the Kingston Hospital in a critical condition as the result of injuries sustained when the Chevrolet car crashed on the hill between the West Hurley church and the post office about six o'clock this morning. Bettelheim's car crossed the road and broke off two concrete posts and then plunged down a ten foot embankment and crashed into a fence.

Deputy Sheriff Vredenburg, who answered a call to the sheriff's office, found Bettelheim lying by his car, unconscious. The driver's balance was called and the injured man was rushed to the Kingston Hospital.

## TOO TIRED TO PLAY.....and then he Smoked a CAMEL!

## Here's the rapid way to bring back energy when tired!

Within a few minutes after smoking a Camel, when weary and dispirited, you will find your vim and vigor definitely increased. First you notice the full, rich flavor of Camels. Then comes a delightful "lift" in energy.

**Idea Not New!** Thousands of Camel smokers have long known and enjoyed this wholesome effect. And now scientists fully confirm their experiences, as you may have read already.

Camels have a positive "energizing effect." Through

it your latent, natural energy is made available. The feeling of well-being and vigor, natural to all, is quickly heightened.

So make Camels your cigarette. Be one of the great army of smokers who are delighted to "get a lift with a Camel." With Camels you can smoke just as many as you want. Camels are made from finer, MORE EXPENSIVE TOBACCOS than any other popular brand. They will not ruffle your nerves!

### SNAKES' VENOM AN AID FOR EPILEPSY

Reptile Curator Arrives From Africa With Treatment.

New York—Dr. Frederick William FitzSimons, curator of the Museum and Snake Park at Port Ewen, N. J., arrived on the New York from South Africa last night for a visit of several months. He will discuss with American scientists a new serum, made from snake venom, which he has found of great advantage in treating epilepsy and in the treatment of the nervous system.

Dr. FitzSimons, who spent the summer after 24 years of intensive research with snakes in South Africa, and has many well authenticated reports of how injections have benefited epileptics and sufferers from chorea (St. Vitus Dance), hysteria and shell shock.

The principle of using snake venom to combat disease did not originate with Dr. FitzSimons, who explained that he did his early research at the Pasteur Institute in Paris under the direction of the late Professor Albert Calmette. In recent years Dr. Adolph Monod, former surgeon general of the American Red Cross, has devoted much time to the study of cobra venom and its effect on cancer and epilepsy.

Dr. FitzSimons, however, believes he has perfected a way to change the violent toxins of snake venom into harmless toxins, permitting more frequent injections of larger quantities. The change of toxins to toxoids also speeds the time of immunization of horses, from whose blood the serum is obtained.

Dr. FitzSimons was born in Galway, Ireland, in 1871, and was educated in Natal and later in Ireland. For a time he was curator of the Pietermaritzburg museum, and later became head of the Natal government museum. In 1901 he went to Port Elizabeth, where he developed the now famous Snake Park, a public zoo with hundreds of snakes on view, as an aid in his experiments.

World's Williams Asked

to Honor Saint William

Saint Breton, Brittany—All the Williams, Guillaumes, Bills, Wilhelms, Guglielmus, and Williams in the world are invited to attend the seven hundredth anniversary of Saint William in this Breton town next October.

Seven hundred years ago, Guillaume Pinchon (one of the few authentic saints of Brittany, duly accepted by Holy Church) was canonized in Rome, and it is the anniversary of this event which is to be observed from September 30 to October 7.

Twenty bishops will take part in the religious part of the ceremonies being planned, and the relics of Saint William will be installed in the cathedral here.

In connection with the Williams celebrations a "congress of pardons" also will be held, and all the Breton cities famous for their pardons, such as Le Folgoet, Rumengol, St. John of the Finger, Saint Anne la Palud, and Auray will send delegations, members of which will be attired in distinctive costumes of Breton origin.

A medieval mystery play will be presented. A tournament, recalling "days of old when knights were bold," will be staged, all participants being named William and attired in trappings of St. William. There also will be a historical parade, dramatizing the important events of Breton history. For a week a medieval fair, exactly as it was 700 years ago, will be held here.

### Turkish Youth Fights

Use of Veil by Women

Istanbul, Turkey—Turkish women who cling to the old-fashioned veil are being criticized severely by the modern youth of Turkey.

Despite Mustafa Kemal's emancipation of the former harem dwellers, many women obstinately retain the square piece of black cloth which covers all the features from the eyes to the chin.

The Kemalist youth of Aydin, near Smyrna, have plastered the town with posters which read:

"It is repulsive to wear a veil in the street; an uncovered brow is the Turkish woman's greatest honor; it is shameful to walk about with the face covered; Turkish citizen, do not allow your wife, sister, or mother, to go about veiled; suppress the veil, but do not tear it up; use it for some other purpose."

### Ancient Fossilized Bones Found

Fenton, Mo.—At the bottom of a bridge abutment pit on Romaine creek here scientists from Washington university recently discovered fossilized bones believed to have been those of a mastodon, dead probably 10,000 years.

### Doctors Ponder on

Odd Accident Case

Albany, N. Y.—A case described as one of the most unusual in medical history continues to puzzle surgeons here.

Frederick McGee, a machinist, accidentally was struck on the head with a hammer by a fellow worker in 1928. He appeared to be unharmed. One month later, however, he was found wandering along the streets, unable to remember his identity, or recognize his wife and children.

Gradually his memory returned, but he discovered he had forgotten his trade completely.

Quick!  
Four eggs, beaten separately, with salt and pepper, and add to them 1 cup hot milk, then add the water, sugar, salt and mix thoroughly. Have ready an iron spider, hot and well buttered, also a cover to fit spider. Pour in so you can cut through the crust of middle and fold over. Serve at once on hot platter. The test must be great enough to cook and brown it and yet not burn. It takes from 10 to 15 minutes to cook and is a most undivided attention.

Hot Blueberry Cake  
One-quarter cup shortening, 1 cup sugar, 1 egg, 1 cup milk, 1 1/2 cups flour, 2 1/2 teaspoons baking powder, 1/2 teaspoon salt, 1/2 teaspoon vanilla or lemon extract, 1 cup blueberries, lightly frosted. Cream the shortening and add the sugar. Add the well-beaten egg, then the milk alternately with the flour, baking powder, and salt which have been sifted together. Add the vanilla and fold in the flour and blueberries. Turn into a greased and floured shallow pan and bake in a moderately hot oven 15-20 degrees for about 20 minutes.

Cream of Carrot Soup  
One and one-half cups sliced carrots, 1 slice onion, few sprigs parsley, 3 cups water, 1 tall can evaporated milk, 1 tablespoon butter, 1 tablespoon flour, salt, pepper, nutmeg. Cook the carrots with the onion, parsley and water until they are tender. If left over, carrots are used cook them for only a few minutes. Rub carrots through a sieve, add the milk, heat almost to the boiling point, and thicken with the flour, which has been blended with the butter. Season with salt, pepper, and a few grains of nutmeg. This soup serves five or six persons.

## Financial and Commercial

New York Aug. 13 (AP)—Stocks were mixed today. Strong buying appeared in the market, but the market rallied sharply. Grains declined a cent or a half, as trading was restricted after being stopped by the boll weevil. Cotton advanced, but the market was not strong. The market for foreign exchange was quiet.

Consideration is being given to the development of the stock market, notably in the utilities, American Telephone, in which dividend action is due Wednesday, rose 3 points, and similar gains appeared in Union Pacific, Santa Fe, and others. Issues up about 2 points or more included U. S. Steel, Goodrich, U. S. Rubber, preferred, Armour preferred, Case, U. S. Gypsum, Cuban American Sugar preferred, Dupont, Howe Sound, and others. There were numerous advances of a point or more in packing, rubber, non-ferrous metal, sugar, motor and other groups.

## Bugs Attack Hard Maple Trees Here

State Conservation Men Make Investigation of Conditions—Mayor Heiselman Taking Steps to Save Trees—No Money Appropriated for Spraying—Trying to Remove Equipment.

Residents of the Second ward and other sections of the city have called attention to the fact that hard maple trees in the city are being attacked by a bug known as an apple bug. These bugs are attacking the trees in the side of the leaves and work the sap out of the tree.

Trees that have been attacked are easily identified for the bugs leave what look like white patches on the side of the tree and on the limbs. They attach themselves to the trunk and limbs of the tree and lay their eggs, covering them over with a substance that looks like white cotton. Today some of the state conservation men were in the city and with Mayor Heiselman inspected some of the trees. They took samples of leaves and bark and are sending them to Albany to ascertain whether it would be best to spray trees now or in the spring.

The city has no equipment to handle the situation and for that reason Mayor Heiselman has taken the matter up with the state experimental station at Vassar College with the request that the station loan the city the use of one of their power sprayers to use in spraying affected trees.

The elm trees in the city are also being attacked by an insect.

## Credits Hoover With NRA Foundation

Johnsbourg, N. J., Aug. 13 (AP)—Herbert Hoover received credit today for some of the foundation work of the NRA.

Dr. W. D. Ennis, head of the department of economics of engineering at Stevens Institute of Technology, told engineers at the summer camp that the former President's trade practice conferences laid some of the groundwork for the National Recovery Administration.

"First as secretary of commerce, and then as President," Dr. Ennis said, "Hoover's trade practice conferences between trade associations and the federal trade commission suggested a partnership of business and government, called attention to the unduly restrictive effect of anti-trust laws, stressed unfair competition, and did valuable work in standardization of products and toward the introduction of adequate cost accounting."

## About The Folks

Mrs. Morris Cohen of 7 W. Strand is visiting Mr. and Mrs. H. Kistoff in Brooklyn.

Mr. Harold Steeger and son, Robert, are spending the week at Lake Hopatcong, N. J.

## Human Fly To Climb Here Tuesday

HENRY D. ROLAND

The daredevil who thrilled Kingston audiences some years ago by climbing the front of the Sam Stone tire shop on lower Broadway, now removed, and the Governor Clinton Hotel, will scale the front of the Advance Restaurant building across from the Ulster county court house on Wall street, Tuesday. He will go up the building twice, once at 2:30 o'clock and again at 7:30. After reaching the top of the building, Roland will walk along the edge of the roof, blindfolded, with his wife on his shoulders. Only once in 20 years of performing his daredevil stunts did the Human Fly fall. The mishap took place in 1922 at Bloomfield, Ia., when a pigeon struck him in the face causing him to lose his balance. He was confined to a hospital for a year and six months.

## Local Death Record

Funeral services for Mrs. Fannie Bell of West Shokan were held at her late home on Friday, August 10, at 2 p. m., and were largely attended. The Rev. Ahrens, pastor of the West Shokan Baptist Church, officiated. Interment was in the family burial plot in West Shokan. Surviving are her husband, Filmore Bell; one adopted son, Roy Van DeMark, of West Shokan; one brother, Abram Lane, of Lanesville; and one sister, Mrs. Mary Maxon, of Fleischmanns.

Mrs. Amelia Kastens (nee Groubach), wife of the late Alexander Kastens, died in this city early last Saturday morning, August 11. Mrs. Kastens was born in Kingston and moved to New York in her early childhood. Four months ago she came to this city to visit relatives and was taken ill, remaining until her death. Surviving are two children, Mrs. David B. Lyman, 3rd, and Edwin H. Kastens of New York city. The body was taken to her late home, 94 West 162nd street, Saturday evening by Funeral Director Henry J. Burke of 442 Broadway, this city, and funeral services will be held there this evening at 8 o'clock. Interment Tuesday in the Cedar Grove Cemetery.

Mrs. Kathryn Adams Van Buren, wife of Albert Van Buren, died early Sunday morning following a short illness. She was born in this city, the daughter of the late George and Mary Moxham Adams and was highly regarded by a large circle of friends. She was a devoted wife and mother and was always ready to lend a helping hand to anyone in trouble. She had long been a faithful member of the Church of the Holy Cross. Besides her husband, she leaves a son, Edward Adams Van Buren, and a daughter, Charlotte, also a sister, Mrs. Lavinia Adams Tucker, of Oakland, California. The funeral will be held from her late home, No. 61 Maple street, Wednesday morning at 10 o'clock. The interment will be in the family plot in Hurley Cemetery.

Otis B. Smith of 169 Wall street died at his home Sunday, August 12, aged 63 years. He is survived by his wife, who was formerly Ella Trumbull, his step-mother, Mrs. Fred Smith, of Kerhonkson; a daughter-in-law, Mrs. John Knack, of Brookville; seven brothers, De Witt Smith of Florida, Ralph Smith of Cherrytown, N. Y., Henry, Leroy, Harry and Howard of Kerhonkson, Lorin of Kingston, and four sisters, Mrs. A. H. Smith of Florida, Mrs. George Thomas and Mrs. Florde Eck of Kerhonkson, and Mrs. Ralph DePuy of Kingston. Mr. Smith was a member of White Star Lodge, F. and A. M., of Brooklyn. The funeral will be held from the late home Wednesday afternoon at 1 o'clock. Interment will be in the Bloomingburg Cemetery. The Rev. Frank Neal will officiate.

Evalyn A. Haysradt, Houghtaling widow of William E. Houghtaling, died at her home Saturday evening after an acute illness. While Mrs. Houghtaling had been ill for a long time and bedridden it was a shock to her friends and neighbors to learn that she had died so suddenly. Her husband's passing in January of this year was a great loss from which she never recovered. Her life was beautiful and while confined to her bed she was always cheerful and never complained. She was a member of the Port Ewen Reformed Church and in her younger days was an active worker. She leaves to mourn her loss two daughters, Mrs. A. Warris Taylor of Albany and Mrs. P. J. Kane at home; one brother, Edwin Haysradt of New York city; and one grandson, Donald N. Taylor. Funeral at her late home in Port Ewen Tuesday.

## Died

HOUGHTALING—At Port Ewen, N. Y., Saturday, August 11, 1934, Evalyn A. Haysradt, widow of William E. Houghtaling. Funeral at the residence on Broadway, Port Ewen, Tuesday at 2:30 p. m. Relatives and friends invited. Interment in Port Ewen Cemetery. Kindly omit flowers.

SMITH—at his home, 169 Wall street, Sunday, August 12, 1934, Otis B. Smith, aged 63 years. Funeral service will be held from his late home on Wednesday afternoon at 1 o'clock, daylight saving time. Interment in Bloomingburg Cemetery.

VAN BUREN—Entered into rest Sunday, August 12, 1934, Kathryn Adams Van Buren, beloved wife of Albert Van Buren, loving and devoted mother of Edward Adams and Charlotte Van Buren. Relatives and friends are invited to attend the funeral from the late home, No. 61 Maple street, Wednesday morning at 10 o'clock. Interment in the family plot in Hurley Cemetery.

In Memoriam. In memory of our dear mother and wife, Mrs. S. Anderson, who departed August 13, 1933. One year ago you left us. How often we miss your loving face. But you left us to remember. None other could take your place. A happy home we once enjoyed. How sweet the memory still. But death has left a loneliness. The world can never fill. (Signed) HUSBAND, SONS AND DAUGHTERS.

## Birthday Party

On Saturday afternoon, August 11, a number of friends gathered at the home of Miss Rita Hahn, 77 Stephan street, to help her celebrate her 13th birthday. Games were played and prizes awarded the various winners. At 5:30 the guests were ushered into the dining room which was prettily decorated with streamers of different colors, the table looked very pretty with its large birthday cake and two bouquets of gladioli. Early in the evening the guests departed wishing Rita many more happy birthdays. Many pretty gifts were received. Among those present were: Marjorie Radell, Natalie Topp, Ruth Alward, Audrey Wendland, Vivian Rougier, Anna Kirchner, Doris and Alvina Knop, Hilda and Vesta Shoemaker, Shirley Myers and Rita Hahn.

## Hasbrouck-Clark

At Sunday noon, August 12, a very lovely home wedding took place at Tilson when Miss Marion Frances Clark, only daughter of Mr. and Mrs. Roy E. Clark of that place, became the bride of Charles Frederick Hasbrouck, son of Calvin Hasbrouck of Stone Ridge. The ceremony was performed by the Rev. Anson S. Coutant of Tilson. Preceding the ceremony, Donald Clark, cousin of the bride, sang "I Love You Truly." Mrs. Lucas D. Myers, of Port Chester, and an aunt of the bride, accompanied him and also played the Bridal Chorus from Lohengrin. The bride, who was given in marriage by her father, was lovely in a dress of white tulle and chiffon. She carried a bridal bouquet of Kaiserling roses and answonia. Miss Ella N. Cox of Kingston was her maid of honor. She was prettily dressed in aquamarine mousseline de soie and carried an arm bouquet of talisman roses. Mr. Has-

## Try Experiment on Willited Streets

About 10 Miles of That Pavement Laid Here During Campaign Administration—Willie Badly Cracked—Trying to Seal the Cracks.

During the administration of the late Palmer Canfield as mayor of the city about 10 miles of Willite streets were laid, and today the Willite pavement is badly cracked. It would be a costly undertaking to rip up these ten miles of pavement and rebuild new streets and for that reason Superintendent James Norton is trying an experiment to save the streets. He is using an asphaltic emulsion to seal the cracks and over it is laying a very fine stone to act as a binder. He is also planning to treat another section of Willite pavement in another section of the city with this treatment.

If the experiment proves successful it will be possible to save the pavement for some years to come and the cost of the treatment is but eight cents a square yard. Officials say that many of the Willite streets have no foundation under them which is one of the reasons why the Willite is breaking up.

## Pettit Larceny

Joseph Edmunds, 16, of Poughkeepsie, was committed to the Ulster county jail Sunday to serve 30 days in default of a fine of \$30. He was arraigned before Justice Walter Hasbrouck on a charge of petit larceny.

**"Thank You, Martin"**  
—Pittsburgh—Very obliging is Martin Joyce, 45, alleged numbers racketeer. Arraigned on a lottery charge, he was asked by Magistrate Anthony Lucas: "How long have you been in this racket?" "A year," said Joyce. "Then you are able to pay a fine?" "Sure!" "Would \$50 be too much?" "No, not at all." Joyce paid and walked out.

**Frightened To Death**  
—New Albany, Ind.—Heart failure caused by fright was recorded by Coroner Frank T. Tyler as having caused the death of Mrs. Helen Jenkins Davis, 34, of Goldsboro, N. C. She collapsed at the wheel of her automobile after narrowly avoiding a collision with another machine, and died on the way to a hospital.

**Stream Lined Dancing**  
—Chicago—It's the "stream-lined fox trot" this season. The creation of Josie Corbetta and Elliott Vincent, here for the convention of the Chicago convention of dancing masters, the dance gets away to a "free wheeling" whirl, glides into a "knee-action" strut and concludes abruptly with a "hydraulic" break.

What most of us should keep in mind is not that everything can't be done today. What we should remember is the fact that everything can't be done tomorrow.

## Yurok Indians Will Not

### Live Near Their In-Laws

In the opinion of the Yurok Indians of the lower Klamath river in northern California, a man who lives with his mother-in-law or father-in-law, or even near them, is only half married. This primitive version of the "mother-in-law jokes" was collected by University of California men. It forms part of the study of marriage customs and kinship terminology among the Yurok Indians published by the University Press.

The anthropologists reveal that the young Yurok avoids whenever possible proximity to the wife's parents. He submits to it only when he cannot afford to pay the full bride-price.

Anthropologists are interested in the social and material cultures of primitive peoples because they are foundations on which civilization is built, and without knowledge of them it would be difficult to understand modern institutions.

The information gathered by the California university men also offers a curious commentary on the popular belief that love is a predestined emotion which overcomes all obstacles. Yurok men tend to marry among the most conveniently located women. It is shown. Also, it has been found, they tend to fall in love with women who live downstream from their own village, rather than upstream.

## Detroit's 12th Win Increases Lead As Yanks Break Even With Red Sox

By HUGH S. MILLERMAN, Jr.

Associated Press Staff Writer

A Detroit victory by the Red Sox has increased the lead of the Tigers in the American League. The Red Sox broke even with the Yankees, while the Tigers won their 12th game.

The Tigers won their 12th game, a 5-4 victory over the Yankees, while the Red Sox broke even with the Yankees, while the Tigers won their 12th game.

The Pirates and Phillies hold decisions over both teams in addition to Chicago, which has beaten the Yankees five of the 11 games they have lost.

The Pirates defeated the Reds, 9 to 6, in the only other National League game yesterday.

Detroit's Tigers prolonged their winning streak to 12 games and increased their American League lead over the Yankees to 4½ games. The Cleveland Indians were the victims and the final score was 5 to 4.

The Yankees broke even with the Red Sox. While 46,766 fans looked on and about 20,000 more regretted their failure to arrive early enough to get into the park, Boston won the first game 6-4 as Wes Ferrell pitched his tenth victory.

New York came back to take the second game 7-1 behind the seven-hit flailing of the spectacular Johnny Broome.

The big turnout was inspired largely by Babe Ruth, who, according to his own announcement, was making his last appearance as a regular in the city where his big league career began.

George Farnshaw, working for the first \$500 bonus he is to get for each victory over 10, pitched the White Sox into an even break with St. Louis in a double bill. After the Browns won the opener 4-2 when Ray Pepper's eighth inning triple overcame the effects of Al Simmons' homer, the Sox came back to give Farnshaw brilliant support and win the afterpiece 3 to 2.

Washington and Philadelphia started to play a doubleheader but finished with one seven-inning tie at 1 to 1 when rain ended their activities just after the A's had rapped Earl Whitehill for three singles and the tying run.

## Helen Jacobs Starts Defense of Her Title

New York, Aug. 13 (AP)—Helen Jacobs set forth in pursuit of her third successive United States women's singles tennis championship today. Sixty-three others, including three British invaders and all of this country's ranking stars, except Helen Wills Moody and Alice Marble, will try to head her off in the 47th championship at the West Side Stadium in Forest Hills.

Her victory over Mrs. Moody in their now historic meeting in last year's final and her fine showing in the Wightman Cup matches should have served to make Miss Jacobs a standout choice to retain the title, but she was not.

Against her impressive performances in the Wightman Cup series when she and Sarah Palfrey carried the Americans to victory over Great Britain, the experts pointed to her defeat by Margaret (Peggy) Scriven for the French hard court crown; and, more recently, by Carolyn Babcock of Los Angeles in the finals of the Seabright tournament, the only competition in which she has been entered since her return from abroad.

Miss Palfrey, the gallant little fighter from Brookline, Mass., Miss Babcock and the leader of the British contingent, Betty Nuthall, are figured as Miss Jacobs' most dangerous rivals.

The luck of the draw placed Miss Jacobs in the lower, and tougher, half. Her first round opponent today was the clever Boston left-hander, Marjorie Sachs.

Sunday afternoon at Calfro, the home town boys routed the Kaslich A. C. nine of Kingston, by the tune of 13-3.

Misone and Wood did the hurting for the A. C. with Messing behind the bat. The battery for Calfro was Schaeffer and Schmidt.

The only trouble with a "proceeding tax" is that somebody has to pay it. Same with every other tax.

## THE Sportlight BY GRANTLAND RICE

**THE LAST STOP**  
Kids have started to get big league stars. Private and public and professional and amateur—there is a lot of excitement about the return of the professional game to Kingston during the fall and winter months.

With the positive assurance of the organization of the New York State Professional Basketball League and the entry of Kingston into the circuit, followers of the popular indoor winter sport are already doing plenty of speculating as to who will wear the spangles of the Kingston Legionnaires when that team takes the court at the Municipal Auditorium late in October.

Steve Hamas will soon have his chance to show how far a collegian can travel to the pros. This chance will come when the Nuttany Lion from Penn State gets a crack at big Lasky, a tough and ready, hard punching westerner who should be a test for anybody.

Hamas took a big jump forward when he outmarched Max Scameling in one of the best fights of the last few years and if he can manhandle the Lasky entry he will be right at the borderland of big stuff.

Ex-collegians make crack wrestlers, big league stars, and they feature the pro game at football. But so far their careers in the ring have been full of punctures, with the monotonous intoning of TEN above their prostrate forms and battered features.

"A collegian," says Dumb Dan Morgan, "doesn't want to have his features scrambled up—he doesn't want cauliflower ears, so he gets to be too cautious."

They may not get cauliflower ears in pro wrestling but there is at least the strong suggestion of cabbage around the old ear dome in many cases. Anyway, Hamas and Lasky are going to meet in New York late in September, the dirtiest sporting month the calendar has ever shown.

So far this month has only the tennis championships, the golf championship, the East-West polo matches, the international yacht races, the Ross-McLarnin party, the Hamas-Lasky matter, the finish of the pennant races and the start of the football season. Not to overlook a few horse races.

**THE TWO PENNANT RACES**  
Cubs and Cardinals must halt the Giants abruptly on their next west-ern swing or the National League race will be pretty well over.

The Yankees must toss the same amount of backspin into the Tigers and pick up a neat lead at home, or they will be on the way out.

The next five-game series between Yankees and Tigers can write the big chapter of the season, if either team can mop up. If this series has a 3-2 finish there will be no heavy damage either way.

**TO FOLLOW THE BALL**  
There is a natural human tendency to follow the flight of the ball, head ahead of time.

The mind controls the eye. If the mind is on some bunker to be carried, some pond in the way, the eye is likely to take its look too soon.

One instructor offers this advice: "Never mind the eye on the ball—keep your mind on the ball and the eye will stay there—think in terms of cause—not of result—play the shot correctly and the ball will take care of itself. It is almost impossible to keep your eye on the ball if the mind is focused or set on something else."

In the correct mechanical process, the shoulders and body in general should be flexible and allowed to turn naturally while the head is held in a fixed position.

But normal or average tension is so great that with most golfers the shoulders and body, including the legs, are too stiffly held, and when they move, the head also moves.

The average golfer finds it extremely difficult to keep the head fixed and the rest of his body relaxed.

Yet he or she must work out some device—some method—of keeping the head in place if there is any thought of good, consistent golf.

Most first start on the mental side. The golfer must figure that he is never going to look up and see a good shot. He must think more about smooth, correct swinging—not where the ball is going to land.

He must make this a matter of habit. It can't be accomplished with occasional feeble stabs of thought through the fog.

A good way to start is to play the shot and have your caddy tell you just where the ball dropped. This helps to remove the temptation to see for yourself.

## Morgenweck Will Build Quintet Around Three Veteran Players

Despite the fact that the present exhibition games before the league tournament are fairly unproductive to basketball and makes (perhaps) no basketball, there is already a great amount of talk and excitement concerning the return of the professional game to Kingston during the fall and winter months.

With the positive assurance of the organization of the New York State Professional Basketball League and the entry of Kingston into the circuit, followers of the popular indoor winter sport are already doing plenty of speculating as to who will wear the spangles of the Kingston Legionnaires when that team takes the court at the Municipal Auditorium late in October.

Manager Morgenweck expressed himself as greatly satisfied with the plans developing gradually for the return of the pro game here. The next meeting of the league moguls will be at the Van Cluier Hotel in Saratoga on Sunday afternoon.

At that time, final plans will be formulated with a definite alignment of the clubs to be represented. At the present time, the following cities are on the roster: Rochester, Syracuse, Utica, Gloversville or Amsterdam, Schenectady and Kingston. Several other cities have signified their intention to be represented at the August 23 meeting, but it will be necessary for the clubs at that time to put up a fair proportion of their forfeit money and the ones that are really serious will have to get it up.

**Wednesday Night To Be Home Date**  
It has been decided that Wednesday evenings will be the home night for the local club. The team will be known as the Kingston Legionnaires for it is under the sponsorship of Kingston Post, No. 150, American Legion. Wednesday always proved a very popular night for basketball here and with dancing following the games, a weekly amusement is in store for the fall and winter season.

**Week-End Sports In Brief Review**  
(By The Associated Press)  
**Tennis.**  
Brookline, Mass.—Allison defeats Bell, 4-6, 6-1, 6-2, 6-3, to win Longwood Bowl; Lott and Stoeven win doubles.

**Seignior Club, Que.—Parker** stops Sutter, 6-1, 2-6, 6-4 to win invitation tourney final.  
Charlevoix, Mich.—Hal Surface wins Michigan Riviera tournament, beating Karl Kamrath, 6-4, 7-5, 3-6, 6-4.

**Culver, Ind.—Mako** trounces Hunt, 6-3, 6-2, 6-1, for national junior championship.  
**Racing.**  
Saratoga Springs—Boxthorn wins Saratoga sweepstakes.  
Pawtucket, R. I.—Hadagal wins King Philip handicap at Narragansett Park.

**General.**  
Amsterdam—Lovelock beats Bonthron at 1,500 meters.  
Tokyo—Vande Weghe, American star, wins 100 meter backstroke title in Japanese swimming championship.

One decided change in the university's athletic policy was indicated in the announcement that an exhibition game would be played Saturday, September 29, as a season's opener. Details were not given.

The balance of the official schedule:  
October 6; Clarkson; 13, Cornell at Ithaca; 20, Ohio Wesleyan; 27, Brown at Providence; November 3, Penn State at State College; 10, Michigan State College; 17, Colgate; 24, Columbia at New York.

## Legion Juniors Will Play Here Tuesday For N. Y. State Title

The Kingston American Legion Juniors, champions of Section B and C, will play the Rugby Post of Brooklyn for the state Legion title Tuesday afternoon, 5:30, at the Kingston Fair Grounds. The Legion officials came to a decision late Saturday afternoon and ruled Newburgh out of the running. Newburgh had instituted a protest after Brooklyn had beaten them 7-2.

Both of the teams that meet in the finals have impressive records. Brooklyn, because of their sensational victory over Newburgh, will probably be installed a slight favorite.

Kingston is undefeated, having taken Phoenixia twice for the county title, and then continuing with a fine brand of baseball to conquer Scotia, Syracuse and Elmira in a row. Eddie Council, manager of the local team, has called a batting and fielding drill this afternoon at 1:30 at the Fair Grounds.

As this is the first time a championship Legion game was ever played in Kingston a large crowd is expected. The Kingston lineup will be intact with Charley Bock pitching. Zadany catching. Bush 1b. Murphy 2b. Maines 3b. and Vandersee ss. The outfield will consist of Reinhardt, Ashdown and Guess.

**North Rondout Socials Lose to Saugerties**  
Sunday afternoon on the Saugerties diamond the North Rondout Social Club received a 15-6 setback at the hands of the Saugerties Hook and Ladder nine.

Keenan was on the mound for the Hook and Ladder men and allowed but five scattered hits while the Kingston team used three hurlers, Weldemann, Mannello and Komosa. In an effort to stop their opponents' score by innings:

N. R. S. C. 200 121 000—6  
Hooks 510 500 400—15

**Kingston All Stars To Play Zulu Giants**  
At Fleischmanns next Saturday afternoon the Kingston All Stars are slated to play the Zulu Cannibal Giants. The game will be played on the mountain diamond at 3 o'clock. It is expected that Volker and Robbins will form the All Stars battery.

**Here Is a Mark for Golfers to Shoot At**  
Guilford, Conn., Aug. 13 (AP)—Here's a mark for marathon golfers to shoot at—375 holes in 24 hours and 10 minutes.

Bill Farnham, pro at the Guilford Lakes course, set this mark and claimed a world's record.

Using a No. 5 iron and a putter, Farnham started out over his home course at 2:40 p. m. (eastern standard time) Saturday and called it a day at 2:50 p. m. yesterday.

San Francisco Mint Will Be Replaced

San Francisco, Aug. 13 (AP)—A time-soiled landmark that for 50 years has been a part of the life and romance of the west—the San Francisco mint—is about to pass.

This classic structure, into whose vaults have poured untold billions in gold and silver, will be replaced, at a different site, by a modern edifice as a part of the public building program.

Custodian for three score years of much of the nation's wealth, the famous old stone building has stood through fire and quake at Fifth and Mission streets in downtown San Francisco.

Inzots of gold, representing about a third of the country's gold reserve and valued at around two billion dollars, fill the 32 compartments of the main vault. A 44-ton door protects the vault. In addition, silver in great quantities and valued at hundreds of millions, is stored in other vaults on the ground floor. The huge door to the main vault, originally on the vault of the sub-treasury building in Washington, can be opened only by the joint efforts of two persons, each of whom possesses half of the necessary information.

## Sidewalk Imbroglia Results In Arrest Of Kin Of Tiger Leader

Yammany District Leader's Brother Held Following Street Fight in Which Policeman Received Beating.

New York, Aug. 12 (AP)—A sidewalk imbroglio in the wee hours of the morning came to light today with the arrest of Edward J. McCarroll, brother of Tammany District Leader Michael T. McCarroll, charged with beating a policeman with his own nightstick.

The patrolman, Henry W. Smith, was in New York Hospital and his splintered stick held as evidence. Smith received head wounds and body bruises, the latter allegedly from well aimed kicks by Edward J. McCarroll.

Smith reported he was passing the club house of the Edward J. McCarroll Association on East 75th street when a woman staggered from the clubhouse and collapsed on the sidewalk. He tried to pick her up when McCarroll, the officer said, came out and demanded.

“Why don't you leave her alone?” Advised to mind his business, McCarroll brought out half a dozen men from the clubhouse and set on Smith, according to the officer. Taking a beating at too great odds, Smith drew his revolver and fired three times. An officer at an adjoining post and a radio cruising squad replied, finding Smith on the clubhouse steps and club members scattering through the door into the night.

Smith, still conscious, pointed out an apartment house into which McCarroll had disappeared. He was apprehended there with John Morris, who is accused of kicking the officer when he was on the ground.

“No cop can hit me,” McCarroll, who has a reputation for great strength, told arresting officers. “I hit the cop because I thought he was going to hit me with the stick. We just came from an outing. We had a gay time.”

The woman who collapsed in the street after coming out of the clubhouse had disappeared by that time. McCarroll, who gave his age as 41 and occupation as bar tender, is one of several brothers who demonstrated their political prowess a year ago in a bloody and violent primary fight with former Sheriff Thomas M. Farley. Michael McCarroll subsequently took from Farley the Democratic leadership of the 16th district.

## Two Injured In Separate Accidents

The records of the police show reports of two automobile collisions that happened early Sunday morning, one downtown and the other uptown and in which two men were injured.

Sunday at 12:35 a. m., a trailer broke loose from a car being driven by Harold Scott Clapper of 67 Wisner avenue, Newburgh, and collided with an auto being operated by Arthur Lynch of 314 Main street extension, on McEntee street, between Broadway and Adams street.

According to the story of the accident, Lynch was driving out of Adams street on to McEntee, when the trailer let go and collided with his car. Richard Lynch, riding with him, was cut about the face and head.

The other accident took place on Hurley avenue at 1:05 a. m., involving the cars of Raymond Hornbeck of Hurley avenue and Silas Ellsworth of 416 Washington avenue. According to reports made by the drivers, the Hornbeck car was struck in the rear by the Ellsworth car. Ellsworth's report was that the car ahead was driven to make a left turn without a signal from the operator. In this collision Clifford Cole of Sawkill was cut on the knee.

# December will be "FAIR AND WARM" for the Joneses

THAT is to say, Mrs. Jones will be resplendently fair in new furs. And the family will have a goodly supply of fuel to assure cozy warmth.

But what have furs to do with fuel? And in August, especially? Well, Mrs. Jones happens to be a woman who has the family's interests, as well as her own, in mind. You see, she is a good manager. A keen observer. A budgetist who knows how to make two dollars do the work of three. She looks ahead. When winter furs are farthest from most people's minds, she takes advantage of inactive-season prices. . . . She watches the midsummer fur sales. She scans the newspapers—the advertisements.

There's a rich reward of satisfaction in being a "Mrs. Jones" these days. If it's furs—or most anything else for the winter—summer is the propitious time for bargains. You will find many of them in the advertisements in this newspaper. They point the way to highest quality at lowest price.

### MUST CARRY BUTTON AND LICENSE TO HUNT

ALBANY, Aug. 11. Fishermen throughout the state were requested by Conservation Commissioner Little to carry both button and license when in the field in quest of fish or game. Reports reaching the commissioner's desk within recent weeks indicate that an increasing number of fishermen who have been questioned by game protectors could produce only the button when they were wearing on their hats or jackets. The reports also reveal that a large number of men have been apprehended fishing without any license and the game protectors have been instructed to be unusually diligent in checking all fishermen because of this. Other information in possession of the department shows that in several cases two men were fishing on one license, one using the button and the other the license card.

The law requires that the button shall be worn in a conspicuous place on the clothing and that the license shall be carried on the person. During the past several years the departmental policy has been to allow fishermen and hunters to identify themselves if they had only the button on their person and not the license.

"The department has been lenient in the past with fishermen who carried only the button and no license," declared Chief Protector Morris W. Brackett, "but in view of the increasing number of violators apprehended who have no license, who carry only the button, or who have been found with buttons not issued to them, more drastic action will have to be taken than has been done in the past."

### "Uncle Tom's Cabin"

The first dramatization of Mrs. Harriet Beecher Stowe's "Uncle Tom's Cabin" was made by C. W. Taylor and a performance was given August 23, 1852. This version neglected the possibilities of Topsy and Little Eva and enjoyed only brief prosperity. George L. Aiken dramatized the story, giving attention to such possibilities, and presented his play in Troy early in 1858 where it had a run of 100 nights. His version included six acts, eight tableaux and thirty scenes.
